

DIANA KEMUNTO

DATA SCIENTIST | DATA ANALYST

Nairobi, Kenya | +254 748 369 649 | dianakemunto09@gmail.com

LinkedIn: [linkedin.com/in/dianakemunto09](https://www.linkedin.com/in/dianakemunto09) | GitHub: github.com/Dionlucil

PROFESSIONAL SUMMARY

Data Scientist with a strong quantitative foundation in Mathematics and Modelling Processes and practical experience in data analysis, machine learning, data preparation, visualization and reporting. Proficient in Python, SQL, pandas, NumPy and scikit-learn, with experience cleaning and validating datasets, conducting exploratory analysis, building predictive models and communicating data-driven insights. Strong analytical, research and problem-solving skills with experience working independently and collaboratively.

TECHNICAL SKILLS

Programming & Databases: Python, SQL, MySQL, JavaScript

Data Analysis: pandas, NumPy, SciPy, EDA, Data Cleaning, Statistical Analysis, Data Quality

Machine Learning: scikit-learn, Regression, Classification, Feature Engineering, Model Evaluation, Hyperparameter Tuning

Visualization: Matplotlib, Seaborn, Analytical Reporting

Tools: Jupyter, Git, GitHub, VS Code, MySQL Workbench, Excel, Streamlit

PROFESSIONAL EXPERIENCE

DATA SCIENTIST — KEFAR SOLUTIONS

July 2025 – Present | Nairobi, Kenya

- Clean, validate and prepare datasets for analysis and machine-learning workflows.
- Conduct exploratory analysis to identify trends, patterns and data-quality issues.
- Build, evaluate and tune machine-learning models for predictive problems.
- Develop visualizations and analytical reports to communicate data-driven insights.
- Apply structured data-processing and validation practices to improve analytical reliability.
- Collaborate with team members to translate business questions into practical data solutions.

DATA ANALYTICS INTERN — ANALYSTLAB AFRICA, BATCH C

July 2026 – Present

- Conduct practical projects involving data cleaning, EDA, visualization and reporting.
- Perform SQL-based analysis and apply data-quality principles to real-world datasets.
- Develop reproducible Jupyter notebooks and structured analytical deliverables.
- Apply statistical and modelling techniques to investigate business problems.
- Document findings, analytical processes and recommendations.

FREELANCE DATA ANALYST & RESEARCH ASSISTANT — FIVERR

August 2022 – May 2025 | Remote

- Delivered data analysis, research and machine-learning projects across multiple problem areas.

- Used Python, Excel and visualization tools for data preparation and analysis.
- Conducted EDA, feature preparation and model evaluation.
- Produced statistical reports and communicated technical findings to non-technical clients.
- Managed projects independently from requirements gathering through delivery.

QUALITY CONTROL & DATA INTERN — HIGHLANDS DRINKS LIMITED

October 2023 – January 2024 | Nyeri, Kenya

- Maintained and verified production, inventory and stock data.
- Supported operational reporting, record keeping and production monitoring.
- Conducted quality and safety checks while maintaining accurate documentation.
- Assisted in identifying and resolving data and process discrepancies.

DATA / OPERATIONS INTERN — CLUB SODA LIMITED

October 2023 – December 2023

- Supported data entry, verification and record-keeping activities.
- Assisted with routine operational and administrative processes.
- Maintained accuracy and consistency when handling business information.

SELECTED PROJECTS

House Price Prediction | Python, pandas, scikit-learn

- Cleaned and analysed housing data and prepared features for modelling.
- Compared Decision Tree and Random Forest regression models.
- Applied Grid Search hyperparameter tuning and evaluated models using RMSE and R^2 .
- Achieved approximately 0.94 R^2 with the tuned Random Forest model.

Fraud Detection in Financial Transactions | Python, scikit-learn

- Developed a classification workflow for identifying potentially suspicious transactions.
- Performed EDA, preprocessing and feature engineering.
- Compared Logistic Regression, Decision Tree and Random Forest models using precision, recall and F1-score.

LSTM Sentiment Analysis | Python, TensorFlow/Keras, NLP

- Built an LSTM-based sentiment analysis workflow using IMDB movie reviews.
- Prepared text data, trained the model and achieved approximately 86.3% accuracy.

Fake News Classification | Python, NLP, DistilBERT

- Developed a text-classification workflow for identifying potentially misleading news.
- Applied text preprocessing and explored DistilBERT fine-tuning.

EDUCATION

BACHELOR OF SCIENCE IN MATHEMATICS AND MODELLING PROCESSES

Dedan Kimathi University of Technology — School of Science

October 2021 – December 2024 | Second Class Upper Division (First Division)

Relevant areas: Mathematics, Statistics, Mathematical Modelling, Programming, Data Analysis and Problem Solving.

KCSE

Ikonge Girls P.A.G Secondary School | 2016 – 2019

PROFESSIONAL TRAINING & CERTIFICATIONS

- Africa Agility Training Certification — 2025
- PLP Software Development Certification — 2025
- Applied Data Institute Program — 2025
- AI Upskilling Program — 2025
- KodeCamp Machine Learning Course — 16 weeks
- British Airways Data Science Virtual Experience — Forage — August 2023
- Web Scraping Certification — April–June 2023

ADDITIONAL EXPERIENCE

STEM Tutor — Community Education Program | January 2023 – November 2024

- Taught Mathematics and introductory Python and supported students in developing STEM problem-solving skills.

Workshop Facilitator — Dedan Kimathi University of Technology | January – August 2024

- Facilitated workshops on communication, teamwork and presentation skills and supported student participation.

PROFESSIONAL STRENGTHS

Analytical Thinking • Problem Solving • Data Quality • Research • Attention to Detail • Communication • Teamwork • Reporting • Continuous Learning
